Wealth came from God(Tian/Heaven).
Moral/Kind action(Te) came from the heart
Must honest to ownself and other.
Must be spontaneous all.

Outside land, dark-Shadowy
Life have many temptation
Cause by what?

Everything has it's own destiny.
Life path has also be arranged.
The one that know it is God and Goddess.

Pray and beg,
will it always be granted?

Danger and Happiness,
is it because it's own action/moral ?

Become billionaire, and have happy life,
it is because past lives.
However, if not putting more good
disaster will follow.

Person who become Divine because just pray and kneel down
is very rare happened since the ancient time 
Unfortunately, why human realization is so thin?

Xiu Dao means to thickening quality,
strengthening mental and
physical and also putting good seed.

Person who already Xiu Dao
with the wish of becoming Divine is still difficult too..

Divine inside Taoist temple is all great and noble.
All follower must be faithful.

One who pray will receive fortune.
That's a free gift.
But the one that can see / meet, it's a different thing.
Gift and Magick power is only given to those who have affinity.

Studying isn't base on who's first and who's the last.
Only the successful can become the leader.

Count it through time to time,
how many heroes/saint that really understand
the true purpose of entering and leaving this world
until become immortal?

Little realization, little benefit.
A lot of realization, many good things.
Doesn't want to realize it,
there's no cure-medicine.

Time era changes,
Sin keep fall,
Only realize it (WU DAO)
can escape from suffering and drop.

Human that have good heart,
Divine will love them.
Those who are evil will be hate.

Too much freedom must still have control,
just like bright sun-light that damage eye
must decrease it's intense.

Too much forbid/limit own self,
must be free little,
just like surrounded by Fog,
there must be Lights.²
